Activities This Session!!

Curious Explorers: Wild Winter

What's happening outside in the winter? Come learn how different plants and animals have adapted to survive during these cold months. We will look for tracks, signs and scat and make our own as we explore outdoors! Habitat’s naturalists will bring in animals, tell stories and play wild games outside to discover the wonder that winter has to offer!

Dress for the weather – warm coats, boots, mittens, hat. We will go outside each week.
